

# WELCOME TO PRIME

**Prime is empowering our nation's businesses & homeowners with smart solar & battery storage.**

Our goal is to eliminate fuel poverty by delivering affordable and sustainable energy across the UK.

With ever rising electricity prices, Prime puts YOU back in control of your energy. We allow you to generate, store & reuse solar energy thus reducing your reliance on fossil fuels.

## GENERATE

Harness the sun's solar energy with solar photovoltaic panels to power your home.

## STORE

Charge your Prime home battery with excess energy generated by your solar panels.

## REUSE

Reuse stored energy anytime, day or night 24/7.

## MONITOR

Take control of your home's energy with our bespoke live monitoring portal.

### PRIME 2.8kWh HYBRID KIT

Kit Includes: -

- 3.6kW Hybrid Inverter
- 2.8kWh LiFePO4 Battery
- Wifi Dongle
- Generation Meter
